THE LATE FIRE-"MERCURY" AND THE STAR.—In yesterday's paper we gave a correct account of the fire at Mr. Wm Linton's gree-ry store, corner of D and Seventh streets, and in doing so quoted a telegraphic dispatch to the Baltimore Sun stating that the property was "totally destroyed by fire," when there was actually not a stick on fire in the building out of the back cellar. The damage done in the store was by the water used to save it, and in this the active firemen succeeded, as they usually do, seldom permitting any building here
to be "totally destroyed by fire" where there
is a probability of saving it by their exertions
We thought the dispatch a reflection on our firemen, as well as an exaggeration of the loss of Mr. Linton, calculated to mislead his friends and others in Baltimore and elsewhere, thus perhaps doing some mischief, and therefore we

put the public right on the subject.
To-day, however, "Mercury," instead of contradicting the error, continues the exag geration by contending that the loss was very considerable, and says, further, that the telegraph dispatch " proves too accurate for disappointed envy itself to controvert." We have to say, in reply, that if there is any "disappointed envy" in the matter, it is in the pen of Mercury, on account of the accurate statement of the affair as given in the Star, thus exposing his hastily-made exaggerations per telegraph. Caring little about the matter, but not wishing unworthy motives attributed to us, we give this rebuttal of an uncalled-for expression used toward us; and, to show that a fact, ascertained on inquiry this morning, that it will not amount to \$700 at furthest.

We state as made the distance, one mile and a quarter, in the twill not amount to \$700 at furthest.

"The two disappointed countries are the victor on the twelfth round. He made the distance, one mile and a quarter, in the minutes, nine seconds.

THE TRIP OF THE FRANKLIN FIRE COM-PANY .- It would be singular if our gallant fremen were afraid of water, and therefore it is not surprising that the men of the Franklin started on their excursion yesterday afternoon, notwithstanding the heavy rain which fell at the time, accompanied by thunder and lightning.

"The rain with them might roar and rustle, They did na' mind the storm a whistle.'

At the appointed hour the George Washing ton left her wharf, with flags flying, music playing, and the firemen with their various dresses, moving about the deck or in groups, all making a fine appearance; a number of beautiful ladies embelishing the whole scene. Just touching at the Navy Y ard, where a few, among them some ladies, who came too late, were much disappointed, they moved on to Alexandria, where they took on board a dele gation of twenty-five members from the Sun Fire Company of that city. Those from the Vigilant from Georgetown had got on here; also a delegation from our Northern Liberties Fire Company, which, altogether, with the Franklins themselves, made quite an imposing firemen's display. Off again, they soon passed Mount Vernen, where the fine band (Prof. Esputa's) played his beautiful dirge, and a glee club of firemen, sung, in impressive style, the patriotic song-Washington's Grave. Arrived at the White House Pavilion, dancing. singing, and the usual sports of a pic-nic were indulged in most merrily. After enjoying a fine supper, and a delightful evening's pleasure, the company started for home, where they arrived about the "small hours of the night," highly pleased with their interesting trip. To the excellent committee of arrangements much credit was deservedly accorded. They were Mr. C. J. Canfield, Chairman, and Messrs. Edward C. Eckloff, Alex. Tait, Wm. Jones, S. T. Larcombe, J. B. Moran, Wm. J. Fisher, A. Eckloff, and J. M. F. Hough, mem-

Inspector of Fire Apparatus. JOHN T. Towens, Esq., Mayor of Washington.

THE COUNCILS .- In the proceedings of the Beard of Aldermen yesterday, among other business the name of Mr. John M. Stevens was submitted by the Mayor as a lumber inspector, in place of Mr. John W. Ferguson, decessed. Action on the confirmation post-

The Common Council passed a bill appropriating \$5,000 to build a wooden bridge over of the evening, gaiety began to flag, and some Rock creek, at the western terminus of K street, according to the plan of Messrs. Forrest & Dove Dr. Magruder reported the bill from the select committee appointed on the subject. The death of Mr. O. S. Paine, a member of the Common Council, was announced, when the Board adjourned at an early hour, as the Board of Aldermen also did, both uniting in paying this tribute of respect to his memory.

THE SEVENTH WARD .- The eastern portion of this ward appears to be growing rather rest-less of late. Several fights have come off and arrests have been made, but still there seems to be a disposition to be riotous. Last evening ther he was sent about his business, with some a fight occurred at a house in that vicinity in which a lame man was engaged, and, notwith standing his crippled condition, he displayed considerable skill in the art of self-defence. He used his crutch on the heads of his apponents. sutting away the skin and hair in large quantities. We think the young men, who engaged him in this fight will be likely to keep aloof from him hereafter.

A WASHINGTON DAILY SUSPENDED .- The National Era, the famous anti-Slavery organ of this place, has suspended its daily issues, and will hereafter be published weekly. The editor says:—"The daily has fallen far short of defraying its own expenses—much farther short of it, indeed, than was anticipated—and its publication will not probably be resumed next winter, unless there be manifested a will to support it." This does not look as if the cause of abolitionism was flourishing when decidedly the best, and the only respectable jour nai they possess is not adequately supported.

PLEASANT CHANGE IN THE WEATHER -Since the fine rain storm yesterday afternoon, the weather has become delightfully cool and pleasant. Instead of the thermometer indica-ting from ninety to a hundred it is now at midday, not up to seventy. The result is a healthy re-invigoration of the languid and sick, and a vigorous condition of the healthy and strong, all of whom were much effected by the uncommon heat of the past month.

MALICIOUS MISCHIEF. - After the workmen employed for the purpose had finished numbaring the houses near 4) street and Pennsylvania avenue, some mis hievous person took ing, and the body was permitted to remain them all down. This kind of sport is some- until night, when a coroner was found to attimes very costly to the party concerned. The fine is heavy, and magistrates generally do their duty by ordering the full payment, or a long term in the workhouse. We hope they will catch the scamp.

THE REMOVAL OF THE CABINET-making establishment of Mr James W. Plant from D street to 7th, between G and H, ought to be known by those wanting furniture, or anything in his tine. As undertaker, he is one of the most obliging, and "when death comes, as come it must," he will be found to give satisfaction to friends of deceased persons in the performance

of his solemn duties. Suppen Deats.-Philip Samby, a colored man, long known as the wheelsman on the steamer Oceola, fell dead at the wheel while the boat was on the way to this city from Alexandria, yesterday afternoon. Sumby has

been in the employ of Captain Mitchell for many years. BIGANY CASE .- On Sunday night last, Edward Brown was married to Miss Hannah King. Last night, Brown was arrested on the charge of bigamy, and sent to jail for trial at ceipts of the month were \$23,735 50. the next term of the criminal court. Brown

The New York Evening Post thus notices the

walking match which took place at Francoui'

Hippodrome, on Saturday night last: "Eleven young men entered the ring, but after the first round at least ten of them in-creased the walk to a trot. Of course they were ruled out of the race. On the fifth round six continued the walk and run, but the judges allowed them to go on, having made up their minds to award the prizes to no one who did not perform the feat fairly. On the ninth.

three men in the ring, two of whom at the close came in on a fast run. "A young man named Alexander Maxfield. who entered the list as "Novice B," from the commencement to the end of the race kept on a regular steady walk. He was the only person who paid attention to the rules, and was declared the victor on the twelfth round. He

violated the rules by running instead of walking, appealed to the audience about the un fairness of the judges' decision. The specta-tors, however, coincided with the judges, and gave the young American winner three cheers. "On Thursday afternoon there will be a foot race by boys between the ages of twelve and fifteen The distance to be run is twice around the course, a distance of a quarter of a mile. Fifty-two boys will be permitted to contend for the prizes, which will consist of a gold eagle and wreath of laurel, a half eagle, a quarter eagle, and a gold dollar."

LAUGHING LIFE AWAY .- A gentleman who recently paid a visit to the Icarian Association at Nauvoo, thus writes to the editors of the Christian Observer :

"The Nauvoo colony comprises about one hundred and fifty persons. > Nor MARRIED .- Our readers will recellect the case of a young lady of this city, menwent crazy because her lover deserted her for another lady. Rumor has it now that the faith-less swain has hard work to make his marriage stick. The story is substantially as follows: At Clifton Springs, a short time since, a gay party was assembled, among them Miss M., of Buffalo, and F. N., of Syracuse. In the course one proposed a marriage. Up springs the gay young Miss M., and expressed a willingness to be the bride. She was followed by Frank N., who joyfully consented to be the groom. A young gentleman present, who sometimes deals in jewelry, and is well known in Syracuse circles, performed the ceremony, and the merry couple made the usual responses. After the ceremony was over, the groom gave his bride to understand that he considered it binding. She demurred, and started for her home at Buffalo, the baffled bridegroom following her, and pressing his claim at the house of her fastriking specimens of parental indignation from the lady's father. Matters at present are in statu quo, and the lovely damsel remains a "wedded maid." The gentleman claims her as his lawful wife, and her relatives deny the claim —Suracuse Standard.

TAXATION.-There is one passage in the Scriptures to which all the potentates of Europe seem to have given their unanimous assent and approbation, and to have studied so thoroughly as to have it at their fingers' ends : "There went out a decree in the days of Claudins Casar, that all the world should be taxed."-C. C. Colton.

We saw one pile that was the length of eighty rails of fence, (ninstysix feet,) about thirty feet wide, and some two feet above the fence, seemingly enough to supply the State. These with vest quentities all ply the State. These, with vast quantities all over the county, and other counties also, will be lost, unless some plan is deviced for using

them." Here in Washington, where potatoes selling at \$1.50 a bushel, the above sounds
